

## “LocalEnergy” Kick-off Meeting Agenda

Project reference: PTDC/EAM-PEC/29905/2017

Location: LNEG, Lisbon, October 4, 2018

### Agenda:

14h00-14h10: Welcome and team members introduction

### **14h10-14h25: Project background, objectives and goals**

*Dr. Filipe Neves, LNEG*

### **14h25-16h25: Project activities**

#### **14h25-14h55: WP2 – Tetrahedrites for thermoelectric applications**

14h25-14h40: Thermoelectric materials from synthetic and mineral-based tetrahedrites

*Dr. Antonio P. Gonçalves, IST-ID*

14h40-14h55: Selection of geological samples

*Dr. Daniel de Oliveira, LNEG*

#### **14h55-15h40: WP3 – Tetrahedrite-based materials for photovoltaic applications**

14h55-15h10: Electrical and optical modelling of tetrahedrite-based thin film solar cells

*Dr. António Joyce, LNEG*

15h10-15h25: Thin film solar cells from tetrahedrite-based absorber layer produced by physical vapour deposition

*Dr. Manuel J. Mendes, NOVA.ID.FCT*

15h25-15h40: Thin film solar cells from tetrahedrite-based absorber layer produced by powder technology

*Dr. José Brito Correia, LNEG*

#### **15h40-15h55: WP4 – Dissemination and Exploitation**

*Dr. Filipe Neves, LNEG*

#### **15h55-16h10: WP 1 – Project Management**

*Dr. Filipe Neves, LNEG*

#### **16h10-16h25: Work Plan for the first 6 months**

*Dr. Filipe Neves, LNEG*

#### **16h25-16h30: Final remarks**
